

OLD MUTUAL MULTI-MANAGERS

{ INVESTMENT ADMINISTRATION PLATFORM }

EXPERTISE. INNOVATION. TRUST

Dear Clients, Consultants and Administrators

ANNOUNCING THE LAUNCH OF THE OLD MUTUAL MULTI-MANAGERS INVESTMENT ADMINISTRATION PLATFORM

In my communication to you in December last year, I made mention of our plans to release a number of innovations and enhanced solutions in 2017. Next month sees the official launch of the first such innovation in the form of our state-of-the-art Investment Administration Platform.

Offering **secure online access** and a host of other value adding features, the Investment Administration Platform delivers flexible, end-to-end, fully customisable investment administration, operated by a proven team of seasoned and very experienced asset management administration experts.

The platform and its benefits are available to all clients administered by Old Mutual Multi-Managers, be they invested in portfolios of their own design or in standard Old Mutual Multi-Managers products. It delivers a full spectrum of proven investment administration services with an exceptional service delivery track record, ranging from the implementation of your chosen portfolio structures to day-to-day administration duties, portfolio and fiduciary management, ongoing performance monitoring and accurate reporting.

The platform also allows you to access the best possible fees from asset managers by either using Old Mutual Multi-Managers' bargaining power or leveraging your existing relationships to deliver the lowest possible cost.

The launch of our enhanced Investment Administration Platform is another pillar on which we will continue to deliver on our FUTUREFOCUS promise to partner with you and all our clients, to ensure the consistent achievement of optimal investment outcomes for members.

If you require any immediate information, please speak to your Old Mutual Multi-Managers representative or feel free to contact me directly. My mobile phone number and email address are listed at the end of this letter. In the interim, watch out for a request for user details early in March.

We look forward to partnering with you to unlock the immense value of our Investment Administration Platform for you, your business, and, if applicable, your fund members.

Kind Regards

Stephan de Kock
