

OLD MUTUAL MULTI-MANAGERS INFLATION PLUS 3 - 5% STRATEGY

FEBRUARY 2021

* The Old Mutual Multi-Managers inflation plus strategies were created to provide investors with investment strategies that are identical to the SIS Life Inflation plus strategies used by Acsis for more than 10 years. The funds are housed on the OMLACSA life license. Returns reported for 1 year period is what clients have experienced in the Old Mutual Multi-Managers strategy on a gross basis. The returns for periods greater than 1 year are composite returns of the Old Mutual Multi-Managers and SIS strategies. The Old Mutual Multi-Managers and the SIS Life range are managed in the same way by our investment team.

INVESTMENT OBJECTIVE

This investment strategy seeks to grow your capital and income at a reasonable pace. It invests in a range of portfolios diversified across various asset classes, asset managers and high-quality instruments, including South African and international cash, fixed interest securities, listed property and listed shares. It aims to achieve a return in the range of 3%-5% above inflation over rolling five-year periods.

This policy based investment is specifically designed for institutional investors and is managed to comply with Regulation 28 of the Pension Funds Act of South Africa.

THE MAIN INVESTMENTS

This investment strategy is made up of underlying portfolios, which invest in specialist asset classes managed by various asset managers. Generally, the strategy may invest in South African and international cash, fixed interest securities, listed shares and listed property. This strategy aims to achieve capital growth over a medium-term horizon and therefore has a moderate exposure to growth assets such as equities and a relatively lower exposure to income-generating asset classes.

ASSET MANAGER PROFILES

Old Mutual Multi-Managers researches the market and appoints the most appropriate asset managers to manage the strategy's underlying portfolios. After appointing asset managers, the investment team continually monitors the strategy, the underlying portfolios and the appointed managers and their investment processes to ensure that they remain appropriate. Old Mutual Multi-Managers has selected a combination of asset managers to manage this strategy's various underlying portfolios.

CPI refers to the CPI (all urban areas) as provided by Statistics South Africa, effective 1 January 2009. Prior to January 2009, the CPIX (all metropolitan and urban areas) was used as the measure for inflation for our funds. The benchmark returns shown here are a composite of the two measures. The CPI figures are lagged by one month as it is calculated before this month's inflation rate was released.
