OTHER INVESTMENT CONSIDERATIONS

INITIAL CHARGES:

There is no initial administration charge on the fund.

ONGOING	
Annual service fee	1.25%

Other charges incurred by the fund, and deducted from its portfolio, are included in the TER.

Total Expenses	36 Months
Total Expense Ratio (TER)	1.29%
Transaction Cost (TC)	-
Total Investment Charge*	1.29%

TER is a historic measure of the impact the deduction of management and operating costs has on a fund's value. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER, which includes the annual service fee, may not necessarily be an accurate indication of future TERs. Transaction Cost (TC) is a necessary cost in administering the fund and impacts fund returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of fund, the investment decisions of the investment manager and the TER.

* This includes:

- The fund of funds' service fees.
- The service fee of underlying funds.
- Where underlying funds charge implicit performance fees, unit holders may carry these performance fees regardless of whether the top tier fund or mandate has outperformed its own performance fee benchmark.
- Other charges incurred by the underlying funds, which are deducted from their portfolios.

It may therefore be difficult for an investor to withdraw from the fund or to obtain reliable information about its value and the extent of the risks to which it is exposed.
