31 JULY 2024

SOLUTION INFORMATION

INCEPTION DATE:	30 June 2003
ASSETS UNDER MANAGEMENT:	R6.3bn
TARGET:	CPI + 4% p.a.
REGULATION 28 COMPLIANT:	Yes

INVESTMENT DESCRIPTION AND OBJECTIVE

The solution seeks to grow capital in excess of inflation and targets returns of 3% to 5% above CPI inflation per annum (after fees) over rolling five-year periods. To achieve this it invests across asset classes including listed shares, listed property, bonds and cash, both in South Africa and globally. The solution may also invest in alternative assets including hedge funds and private equity. Old Mutual Multi-Managers makes the asset allocation decisions and allocates assets to specialist asset managers who manage assets within each of the asset classes. The solution is suitable for investors with a medium-term time horizon who are comfortable with some volatility in returns. It has balanced exposure to growth assets, such as equities and property, and income-generating asset classes. The solution is offered to investors through a life policy.
