

ABOUT OLD MUTUAL MULTI-MANAGERS

TRUSTED, TRANSPARENT AND DELIVERY-FOCUSED

Old Mutual Multi-Managers is a specialist investment boutique and offers a variety of local and global multi-asset class funds. Our sizeable and experienced investment team manages R145 billion in assets under management. Funds are diversified across different asset classes and fund managers to achieve returns above inflation over various time periods.

Our main goal is to ensure that all portfolios consistently outperform inflation, which we consider the most crucial element to building wealth over time. Our investment philosophy revolves around defining clear target objectives related to return as well as risk for each asset class we invest in. This clarity helps our investment team and asset managers stay focused on achieving these objectives more consistently over time.

Old Mutual Multi-Managers has won numerous awards, including the best Hedge Fund of Funds for five years running between 2018 and 2023 at the annual Hedge News Africa awards. Tailored Fund Portfolios received the Citywire South Africa Discretionary Fund Manager (DFM) Award for 2024 in the category of Best Technology.
